For *The Servant on the Mission: Not So Among You*

September 1, 2024

Mark 10:41-45

1. Where do you relate to the disciples as they are being indignant to one another? Is your natural bent to seek power or position, or is your natural inclination to “hope for” those positions?
2. Why does the church need to be reminded today that people who have been ransomed to Jesus should serve others and not “lord your position over others like the gentiles do”?
3. What makes serving so hard in 2024?
4. Jesus points to himself as the example of serving others when your position or authority is high. How are we encouraged by the life of Jesus to serve others?
5. What are practical ways that you are currently serving? Where do you need to shift your heart to a “posture of service” and being serving?
6. How does serving others with no expectation of return paint a picture of Jesus coming to serve and giving his life as a ransom for many?
